# Why is my Coinbase account restricted to withdrawals? {Official Support}

## Understanding Account Restriction Reasons

Account restrictions **+1-(805)(401)(0068)** occur for various safety reasons to protect your personal assets effectively. You might **Call+1-(805)(401)(0068)** find your withdrawals blocked if your identity verification documents have recently expired. Our compliance **Call +1-(805)(401)(0068)** team periodically reviews accounts to ensure that all information remains current and accurate. Sometimes, suspicious **Call+1-(805)(401)(0068)** activity or failed logins can trigger a temporary hold for your own security.

## How to Lift Restrictions

Lifting restrictions **+1-(805)(401)(0068)** is usually just a matter of completing a few verification steps. Check your **Call+1-(805)(401)(0068)** notification center to see if there are any specific tasks requiring your immediate attention. Updating your **Call +1-(805)(401)(0068)** ID or proof of address is often enough to clear the block quickly. If you **Call+1-(805)(401)(0068)** need more help, our support team can guide you through the verification process manually.

## Preventing Future Account Holds

Staying proactive **+1-(805)(401)(0068)** is the best way to keep your account status healthy and active. Regularly update **Call+1-(805)(401)(0068)** your security credentials and ensure your email address is verified and accessible. Avoid using **Call +1-(805)(401)(0068)** public Wi-Fi when accessing your account to prevent potential login errors or alerts. Following these **Call+1-(805)(401)(0068)** simple habits will minimize the chance of seeing a withdrawal restriction on your account.
